=== Server Release 3.0.4 21 June 2012
- fixed broken queryClient database deletion
+ complaints get some height to prevent abusing
+ complaints adding/deletion get logged (client logging need to be enabled)
+ base adding/deletion get logged (client logging need to be enabled)
+ notifychannelgroup/notifyservergroup added i_group_needed_notify
we,
i_group_needed_member_add_power and i_group_needed_member_
+ added permission h_channel_create_modify_with_force_password
+ added permission h_client_is_sticky (sticks a client to our
+ added permission h_client_ignores_sticky (ignores sticky file
+ Compress command packets to reduce network traffic (voice
will not be affected)

=== Server Release 3.0.5 23 April 2012
! MySQL users, please alter your table server_properties and extend the "value"
field
from varchar(255) to varchar(2048)
! privileges/privs no longer shows groups which does not match
i_group_needed_member_add_power and/or i_group_member_add_power
+ added possibility to give a channel password when creating a temporary
server password (check docs for details)
+ the following actions will reset client idletime:
login, client/delete, complain/priv, complain/add, talkover grant and revoke
+ clientlist can also show ip (parameter -ip)
- fixed an issue were channel properties saved two times on create or edit
- fixed an issue were client/delete did not delete avatar files correctly
- fixed invalid list names for virtualserver_notify_points_needed_command_b
lock and
virtualserver_notify_points_needed_ip_block (breaks client-side serveredit
below version 3.0.6)

=== Server Release 3.0.3 19 March 2012
! permissions updated to revision 14
+ added temporary serverpasswords (servertemppasswordadd, servertemppassworddel,
servertemppasswordlist)
- check docs for details
+ added new permission h_client_request_talker to control who can request talk p
wer
+ added new permission h_client_avatar_delete_other to allow deleting avatars fr
m other clients
+ client/channel and client/group shows hidden ip
- fixed queryClient notify bug
